www.el-af.com +966 58 000 2834 |+966541592840 | +966 55 234 6879

# Welcome To Our Company

Elaf International General Contracting Company is a distinguished contracting firm based in Jeddah, with additional registrations in Oman, specializing in civil, electrical, mechanical, and solar projects. We offer a comprehensive range of services, including manpower supply, equipment rentals, and project facilitation such as recruitment and visa processing. Our commitment to excellence is demonstrated through our involvement in high-profile projects, including the drainage and sewage line for Medina Municipality, solar power projects in Jeddah and Riyadh, and various infrastructure developments.

# Vision & Mission

## VISION

Our vision is to be a leading force in the development and growth of the industrial sector across the Kingdom of Saudi Arabia and beyond. We are committed to delivering innovative, high-quality solutions in civil, electrical, mechanical, and solar projects. As part of our mission, we are actively playing our role in contributing to the realization of Crown Prince Vision 2030 and Vision 2040, supporting the Kingdom's ambitious goals for economic diversification and sustainable growth.

MISSION

### 01 Deliver Excellence

Provide top-quality industrial services that meet the highest standards of safety, efficiency, and precision, ensuring every project is completed to the satisfaction of our clients.

### 02 Build Strong Partnerships

Foster lasting relationships with our clients through our core values of Patience, Persistence, and Perspiration, emphasizing collaboration and mutual trust.

### 03 Drive Innovation and Growth

Continuously innovate and invest in our people, facilities, and technologies to offer tailored solutions that contribute to the sustainable development of Saudi Arabia's industrial sectors.

# Our Core Values

## QUALITY

We are dedicated to maintaining the highest standards in every aspect of our work, ensuring that our services meet the expectations of our clients.

## COMMITMENT

We are fully committed to delivering on our promises, ensuring that every project is completed with the utmost dedication and reliability.

## EXCELLENCE

We strive for excellence in all that we do, constantly pushing the boundaries of innovation and efficiency to achieve outstanding results.

*At Elaf International General Contracting Co. , our core values guide our actions and define our commitment to exceptional service and client relationships. They are the foundation of our success and shape everything we do.*

# Our Services

Elaf International General Contracting Co. offers a comprehensive range of services to meet diverse industrial needs, including Staffing Services, Training Services, Civil Contracting, Facility Management, Equipment Rental, Transportation Services, and Safety Supplies. Our expertise and commitment ensure that each service is delivered with the highest standards of quality, efficiency, and reliability, supporting the success of your projects and operations.

# Projects & Experience

**ELAF International Contracting Company has successfully executed a range of projects across Saudi Arabia, demonstrating expertise in material supply, construction support, and infrastructure services. Our extensive experience includes supplying high-quality construction materials and providing reliable logistical support to major contractors and developers.**

- **Al Ayoni Projects:** Supplied construction and infrastructure materials for multiple developments, ensuring timely delivery and adherence to project specifications.
- **construction support, and infrastructure services. China Gezhouba Group Company (CGGC):** Provided essential construction materials for large-scale infrastructure and civil works projects, supporting CGGC’s operational requirements.
- **Nesma & Partners** Bulk supply of specialized sand and aggregates for major "Vision 2030" urban development projects.
- **El Seif Engineering Contracting :** Supply of verified construction sand for high-profile structural and architectural projects.
- **Almabani General Contractors** : Delivery of construction-grade sand for critical transport and airport infrastructure developments.
- **Additional References:** Successfully delivered materials and services for other prominent contractors, including projects coordinated with **Taj Mali Khan** and other major industry partners, highlighting our capability to meet diverse client needs efficiently.
- **Major Project Reference: The Haramain High-Speed Rail (HHSR): ELAF International Contracting Company** served as a key strategic partner to the **Al Rajhi Alliance** during the critical construction phase of the **Haramain High-Speed Rail (HHSR)**, specifically for the high-priority section connecting **Jeddah to Makkah**. In 2012, ELAF was mandated to supply a diverse range of high-specification construction materials required to support the "Fast Track" nature of this mega-infrastructure project.

# *Materials Supplied*

**ELAF International Contracting Company** is a trusted partner for leading construction firms across the Kingdom, providing a consistent and reliable supply of essential materials for large-scale infrastructure and civil works. We specialize in the provision of high-quality **Red Sand**, **Normal Sand**, and **Special Sand**, alongside critical structural aggregates including **Crushed Stone**, **Base Material**, **Sub-base Material**, and **Backfilling Material**. By successfully delivering these specialized products to various Tier-1 companies, we have established ourselves as a key contributor to the regional supply chain, ensuring that every project we support meets the highest standards of durability, technical specification, and structural integrity.

***Red sand***

***Special sand***

***Crushed stone***

***Sub-base material***

***Normal sand***

***White Sand***

***Base material***

***Backfilling material***

# *Red Sand*

**ELAF International Contracting Company** provides high-quality **Red Sand**, sourced from premium natural deposits to meet the essential requirements of large-scale infrastructure and site preparation. Characterized by its excellent compaction properties and stable composition, our red sand is an indispensable material for backfilling, site leveling, and the development of robust foundations and sub-bases. By ensuring material consistency and reliable load-bearing performance, we provide a solution that guarantees long-term stability and structural safety, making it the trusted choice for civil engineering, road construction, and foundational works in major industrial and residential developments.

# *Normal Sand*

**ELAF International Contracting Company** provides high-quality **Normal Sand**, meticulously sourced and processed to meet the rigorous demands of modern construction. Specifically graded for optimal performance, our normal sand is an essential component for high-strength concrete mixing, professional-grade plastering, and precise masonry applications. By ensuring low silt content and excellent particle distribution, we provide a material that guarantees superior bonding and a refined finish, making it the preferred choice for structural integrity and architectural excellence in large-scale residential and industrial projects.

# *Special Sand*

**ELAF International Contracting Company** offers premium **Special Sand**, which is meticulously processed and graded to meet the most demanding technical requirements and project-specific engineering standards. This high-performance material is carefully refined to ensure precise particle distribution, making it the ideal choice for specialized construction finishes, high-end decorative coatings, and technical mortar applications. By providing a product that prioritizes consistency and quality, we enable contractors to achieve superior results in specialized architectural works where standard materials cannot meet the required technical or aesthetic specifications.

# *White Sand*

**ELAF International Contracting Company** provides premium **White Sand**, meticulously selected for its purity and aesthetic quality to meet the high standards of specialized construction and architectural finishing. Characterized by its fine texture and consistent color, our white sand is an essential material for high-end plastering, decorative masonry, and the production of architectural precast elements. By ensuring a clean, debris-free product with excellent workability, we provide a solution that enhances both the durability and the visual appeal of surfaces, making it the preferred choice for luxury residential projects, commercial landscaping, and refined interior finishes where quality and aesthetics are paramount.

# *Crushed stone*

**ELAF International Contracting Company** provides high-quality **Crushed Stone**, engineered through precise crushing and screening processes to meet the rigorous structural demands of the construction industry. Characterized by its high angularity and exceptional load-bearing strength, our crushed stone serves as a vital aggregate for high-grade concrete production, asphalt paving, and durable road base construction. By ensuring consistent sizing and superior resistance to wear and compression, we provide a reliable material that guarantees the structural integrity and longevity of heavy-duty infrastructure, making it the essential choice for highways, bridges, and large-scale industrial foundations across the Kingdom.

# *Base material*

**ELAF International Contracting Company** provides superior-grade **Base Material**, engineered to provide a rock-solid foundation for the most demanding civil engineering projects. Composed of a precisely balanced blend of crushed aggregates and fine minerals, our base material is designed to achieve maximum density and exceptional stability under heavy traffic loads. By ensuring optimal compaction and drainage characteristics, we deliver a product that prevents structural settling and ensures the long-term durability of roads, highways, and industrial platforms, making it a critical component for high-performance infrastructure development throughout the Kingdom.

# *Sub-base material*

**ELAF International Contracting Company** provides high-quality **Sub-base Material**, specifically formulated to act as the primary load-bearing layer for large-scale construction and pavement projects. Comprised of carefully selected granular materials, our sub-base is designed to effectively distribute pressure from the upper layers to the subgrade, providing essential structural support and moisture drainage. By ensuring high CBR (California Bearing Ratio) values and excellent material consistency, we provide a solution that minimizes soil shifting and prevents surface cracking, making it the indispensable choice for the construction of durable highways, parking areas, and heavy-duty industrial foundations.

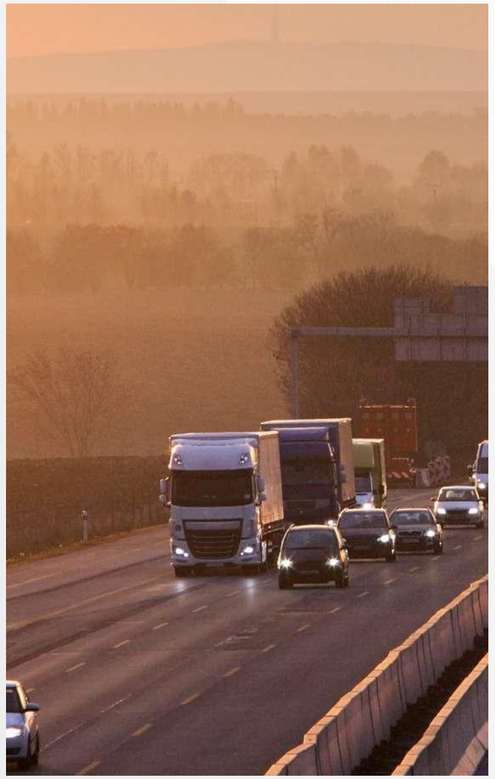

# *Backfilling material*

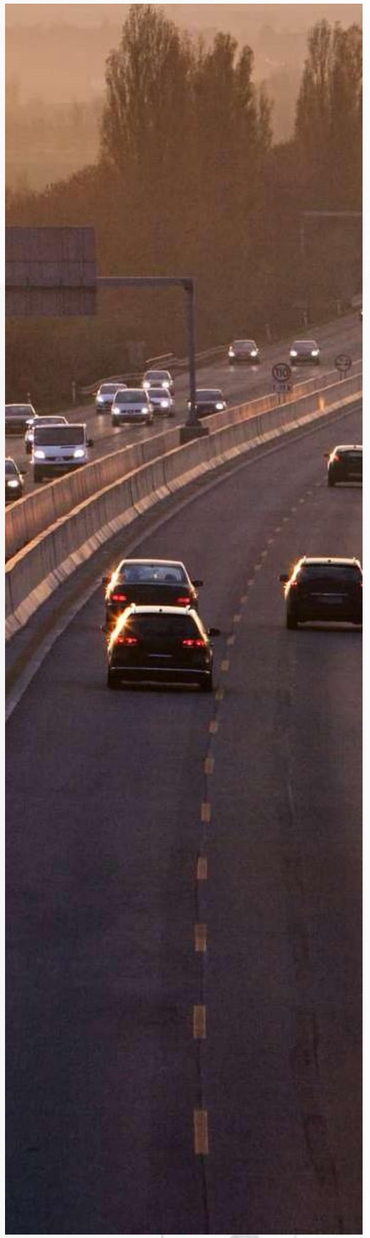

**ELAF International Contracting Company** provides high-quality **Backfilling Material**, specifically selected and processed to ensure maximum stability and structural support for deep excavations and underground installations. Characterized by its excellent compaction density and low compressibility, our backfilling material is an essential component for trench filling, foundation reinforcement, and utility corridor protection. By ensuring a debris-free and uniform composition, we provide a reliable solution that prevents future ground subsidence and protects subterranean infrastructure, making it the trusted choice for large-scale civil engineering, pipeline projects, and foundational works across the Kingdom.

# RELIABLE TRANSPORTATION SERVICES

Elaf International General Contracting Co. offers dependable Transportation Services tailored to meet the logistical needs of your projects. We provide efficient and secure transport solutions for both goods and personnel, ensuring timely delivery and smooth operations. Our commitment to reliability and safety ensures that your transportation requirements are handled with the utmost professionalism, supporting the seamless execution of your projects.

# ELAF INTERNATIONAL – General Contracting Company

We specialize in delivering high-quality internal wall finishes across major projects. With a proven track record and dedication to excellence, our team ensures every surface meets the highest standards of craftsmanship and durability.

**Specialized Wall Finishes**
• Anti-Carbonation Paint for parking walls (Hempel Topaz Primer + Contex Topcoat Matt)
• Emulsion Paint for wet areas (Hempel Topaz Primer + Topaz Zero Matt Emulsion)
• Ceramic Wall Tiles (600 × 600 mm) – bathrooms & corridors
• Porcelain Wall Tiles (300 × 600 mm) – bathrooms
• Oak Wood Wall Cladding – premium interior finish
• Mirror Cladding (6 mm thick, floor-to-ceiling) – gym areas
• Gypsum Board Wall Cladding with Hempel Emulsion Paint
• Wallpaper Application for selected interior surfaces

**Cement Plaster (Internal Walls)**
• 20 mm thick cement plaster with full substrate preparation
• Includes corner beads and wire mesh for joints
• **Completed Volume:** Over 44,000 m²

We ensure each layer is applied with precision, durability, and visual appeal in mind.

**Emulsion Paint (Internal Walls)**
• Complete system with putty, primer, filler, and two coats of Hempel Maestro Matt Emulsion
• **Completed Volume:** Over 37,500 m²

# Our Expertise
# Ceiling Finishes

- **Title:** Ceiling Finishes - Flawless Overhead Solutions
- **Cement Plaster (Internal Ceiling Slabs):** Supply and application of cement plaster including beads and accessories.
- *Volume:* Over 11,300 m2 completed.
- **Paint on Cement Plaster (Ceiling):** Application of Hempel Interior Emulsion Paint (Hempel's pro primer, interior filler, and two coats of maestro pro emulsion).
- **Gypsum Board Ceiling:** Supply and installation of suspended gypsum board ceilings with Hempel Emulsion Paint, flush jointed system with all required suspension components.

- **Elaf International – Finishing & Tile Work Services**
- Elaf International General Contracting Company proudly provides expert **Finishing** and **Tile Work** services as part of its full-spectrum construction offerings.
- ✅ We ensure:
- High-quality interior and exterior finishing

# Our Mission & Vision

**Mission**: To deliver skilled and reliable manpower that meets international standards.

Vision: To become a trusted manpower partner in GCC’s major industrial, gas plant, and infrastructure projects.

# Our Strategic Goals

ELAF International Contracting Company is driven by a series of high-level strategic objectives designed to maintain our position as a leader in the Saudi Arabian construction industry. Our primary goal is to achieve operational excellence by ensuring that every project, from material supply to complex civil works, is executed with the highest level of precision and adherence to international quality standards. We aim to be a fundamental contributor to the realization of Saudi Vision 2030 by actively participating in the Kingdom's infrastructure expansion and supporting the development of sustainable, world-class transportation and industrial networks.

# Our Products & Services

**ELAF International General Contracting Company** offers a comprehensive catalog of high-performance resources and technical services tailored for the Kingdom's infrastructure. Our offerings include a full range of **Premium Aggregates** (Sands and Crushed Stones), **Heavy Equipment Rentals**, and **Skilled Manpower Supply**. We also provide specialized **Mechanical and Electrical Engineering**, alongside innovative **Solar Energy Solutions** and reliable **Delivery Logistics**. This diverse catalog allows ELAF to serve as a versatile, single-source partner capable of supporting every phase of industrial and civil construction projects.

# Product Catalog

**ELAF International General Contracting Company** offers a comprehensive catalog of high-performance resources and technical services tailored for the Kingdom’s infrastructure. Our offerings include a full range of **Premium Aggregates** (Sands and Crushed Stones), **Heavy Equipment Rentals**, and **Skilled Manpower Supply**. We also provide specialized **Mechanical and Electrical Engineering**, alongside innovative **Solar Energy Solutions** and reliable **Delivery Logistics**. This diverse catalog allows ELAF to serve as a versatile, single-source partner capable of supporting every phase of industrial and civil construction projects.

# Characteristics & Advantages

**ELAF International General Contracting Company** is distinguished by its ability to deliver high-impact industrial solutions with speed and precision. Our primary advantage is our **Integrated Service Model**, which combines the supply of premium materials, heavy equipment, and skilled manpower under one roof, significantly reducing procurement complexity for our clients. We are characterized by our **Proven Track Record** in executing high-priority national projects, demonstrating a unique capability to meet strict deadlines while maintaining the highest structural and safety standards.

By aligning our operations with **Saudi Vision 2030**, we provide the advantage of future-ready solutions, including renewable energy expertise and innovative construction techniques. Our clients benefit from **Total Quality Assurance**, ensuring that every resource—from specialized sands to mechanical engineering—meets international benchmarks. Ultimately, ELAF's strength lies in our **Strategic Reliability**; we are not just a vendor, but a trusted partner committed to transparency, operational efficiency, and the long-term success of the Kingdom's infrastructure.

# Success Partners

**ELAF International General Contracting Company** views every project as a strategic alliance. We are proud to be the trusted partner of choice for a prestigious network of **Government Entities**, **Tier-1 International Contractors**, and **Industrial Leaders**. Our success is built on long-term relationships where we provide the critical materials, manpower, and technical expertise required to fuel the Kingdom's most ambitious developments. By consistently exceeding the expectations of our stakeholders, we have become an integral part of the supply chain for major national infrastructure, including the **Haramain High-Speed Rail** and various **Vision 2030** initiatives.

# Core Services

- Manpower supply for Oil & Gas sector
- Skilled and unskilled workforce
- Gas Plant operations workforce
- Safety-trained professionals
- Timely project-based workforce management

# Major Project Experience

ARAMCO – Jeddah Storm Water Project (2012 – 2014)

Client: Saudi Aramco
Main Contractor: China Communication Construction Company (CCCC)
Scope: Manpower supply for Gas Plant operations and related infrastructure

# Our Contribution

- Supplied skilled & unskilled manpower
- Supported gas plant operations
- Ensured safety compliance
- Appreciated by ARAMCO & CCCC for quality workforce

# Our Strengths

- Experienced manpower supply for oil, gas, and gas plant projects
- Commitment to safety and quality
- Workforce with multi-national project exposure
- Reliable and on-time delivery of manpower
